#### One World - Our Responsibility

Tired of plastic shoes or unhealthy foods? Are you committed to a good cause?

Show us with your photos what you like to do differently than usual, where and how you see your future, what preferences you have developed for your future and for our shared future, how much fun you have doing it or how serious you are about your business.

We want to see your pictures! Share your experiences and inspirations with us in your pictures. Because every little story counts and inspires others, like:

- **1 Sustainable fashion:** Have you discovered a new passion for fairly produced clothing or sustainable materials such as linen or organic cotton? Show us why you swapped plastic shoes for eco-friendly alternatives and how it impacts your life.
- **2 Healthy diet:** Do you eat more consciously and value regional, seasonal and organic products? Show us pictures of your favorite recipes and how you have replaced unhealthy foods. Or: how has your health and well-being changed?
- **3 Environmental commitment:** Whether waste collection campaigns, tree planting or energy saving your pictures tell the story!
- **4 community projects:** Are you working on projects that make our society more sustainable and fair? Whether it's urban gardening, car sharing or social justice initiatives let's see how you shape the future and inspire others to take action too.
- **5 Fun and Creativity:** Sustainability doesn't have to be boring! Show us how much fun it is to break new ground. Whether DIY projects, upcycling ideas or creative events your creativity knows no limits.
- **6 Seriousness and Dedication:** Sometimes it's just the small steps: show them to us!
